## SECTION ~~11~~XI. NON-CONFORMING USES

### ~~A.~~ Expansions

A non-conforming structure may be added to or expanded after obtaining a permit from the same permitting authority as that for a new structure, if such addition or expansion does not increase the non-conformity of the structure.

- ~~C.~~ Any non-conforming use may continue and may be maintained, repaired, and improved under these conditions. No such non-conforming use may be expanded, changed to another non-forming use, or renewed after it has been discontinued for a period of twelve (12) calendar months or more without a permit from the Planning Board in accordance with Land Use Standards of this Ordinance.
- ~~D.~~ Any non-conforming lot of record existing before the effective date of this Ordinance and not adjoined by other land of the same ownership may be used in accordance with State law and Section XIV of this Ordinance.

## SECTION ~~12~~XII. VARIANCES

### ~~A.~~ Variancees

The Board of Zoning Appeals may, upon written application of the affected landowner, grant a variance from the strict application of this Ordinance, as authorized by Title 30-A M.R.S.A., Section 4353(4-A), (4-B) and (4-C), as may be amended from time to time, when one of the following subsections applies:

#### ~~i.~~ 12.1 Disability variance.

The Board of Zoning Appeals may grant a variance to an owner of a dwelling for the purpose of making that dwelling accessible to a person with a disability who resides in or regularly uses the dwelling. The Board shall restrict any ~~variance granted~~ variance granted under this subsection solely to the installation of equipment or the construction of structures necessary for access to or egress from the dwelling by the person with the disability. The board may impose conditions on the variance, including limiting the variance to the duration of the disability or to the time that the person with the disability lives in the dwelling. For the purposes of this subsection, a disability has the same meaning as a physical or mental handicap under Title 5 M.R.S.A., Section 4553, and the term "structures necessary for access to or egress from the dwelling" is defined to include railing, wall or roof systems necessary for the safety or effectiveness of the structure.

**ii. 12.2 Setback variance for single-family dwellings.**

The Board of Zoning Appeals may grant a setback variance for a single-family dwelling, not to exceed 20% of the setback requirement, if it finds that strict application of this Ordinance to the petitioner and the petitioner's property would cause undue hardship. The term "undue hardship" as used in this subsection means:

- a. The need for a variance is due to the unique circumstances of the property and not to the general conditions in the neighborhood;
- b. The granting of a variance will not alter the essential character of the locality;
- c. The hardship is not the result of action taken by the applicant or a prior owner;
- d. The granting of the variance will not substantially reduce or impair the use of abutting property; and
- e. The granting of a variance is based upon demonstrated need, not convenience, and no other feasible alternative is available.

**iii. 12.3 Variance from dimensional standards.**

The board may grant a variance from the dimensional standards of this Ordinance (except setbacks for single-family dwellings as addressed in subsection ii) when strict application of the Ordinance to the petitioner and the petitioner's property would cause a practical difficulty and when the following conditions exist:

- a. The need for a variance is due to the unique circumstances of the property and not to the general condition of the neighborhood;
- b. The granting of a variance will not produce an undesirable change in the character of the neighborhood and will not unreasonably detrimentally affect the use or market value of abutting properties;
- c. The practical difficulty is not the result of action taken by the petitioner or a prior owner;
- d. No other feasible alternative to a variance is available to the petitioner;
- e. The granting of a variance will not unreasonably adversely affect the natural environment; and
- f. The property is not located in whole or in part within shoreland areas as described in Title 38, M.R.S.A. Section 435.

As used in this subsection, “dimensional standards” means and is limited to provisions ~~of~~ this Ordinance relating to lot area, lot coverage, frontage and setback requirements.

As used in this subsection, "practical difficulty" means that the strict application of the ordinance to the property precludes the ability of the petitioner to pursue a use permitted in the zoning district in which the property is located and results in significant economic injury to the petitioner.

No variance otherwise authorized by this section shall be granted if doing so will cause a substantial departure from the intent of the ordinance. A variance shall not be granted to permit a use or structure otherwise prohibited.

The Board of Zoning Appeals shall hold a public hearing on an application for a variance. Said public hearing shall be held within 30 days of the time of submission of the application. Notice of said hearing shall be posted in the Town Office at least fourteen (14) days prior to the public hearing and advertised in a newspaper of general circulation in Stockton Springs at least one time; the date of the publication to be at least 7 days prior to the hearing. The Board shall send notice of such public hearing by ~~First Class Mail~~ Certified Mail, to all owners of property within ~~500~~ 1,000 feet of any boundary of the subject property. Said notice shall be mailed no later than 10 days prior to the date of the public hearing. The purpose of the public hearing shall be for the Board of Zoning Appeals to receive testimony from the applicant and the public related to the ~~approval standards~~ approval standards and any municipal or state ordinance, standard, or regulation which is applicable to the proposed. All variances granted by the Board of Zoning Appeals shall be recorded at the Waldo County Registry of Deeds.

## **SECTION 13 XIII. ENFORCEMENT**

### **A. 13.1 Nuisances**

Any violation of this Ordinance shall be deemed to be a nuisance.

### **B. 13.2 Code Enforcement Officer**

It shall be the duty of the Code Enforcement Officer (CEO) and Assistant Code Enforcement Officer(s) to enforce the provisions of this Ordinance. If the CEO and/or Assistant CEO shall find that any provision of this Ordinance is being violated, they shall notify, in writing, the person responsible for such violation, indicate the nature of the violation and order the action necessary to correct it, including:

- ii. Removal of illegal buildings or structures;
- iii. Abatement of nuisance conditions; and
- iv. Work performed without the necessary permit.

A copy of such notices shall be maintained as a permanent record.

C. **13.3 Legal Action**

When the above action does not result in the correction or abatement of the violation or nuisance condition, the Municipal Officers, upon notice from any of the Code Enforcement Officers, are hereby authorized to institute any and all actions and proceedings, either legal or equitable, including seeking injunctions of violations and the imposition of fines, that may be appropriate or necessary to enforce the provisions of this Ordinance in the name of the municipality.

The municipal officers, or their authorized agent are hereby authorized to enter into administrative consent agreements for the purpose of eliminating violations of this Ordinance and/or recovering fines without court action, or during court action; provided however, a municipal officer shall not allow an unlawful structure or use to exist or continue, unless the municipal officers are satisfied that the following conditions have been met: 1) there is no evidence that the landowner or violator acted in bad faith; 2) the violation did not continue following a municipal order to stop the violation; and 3) the unlawful structure or use will not result in a threat or hazard to public health or safety and will not result in substantial environmental damage.

D. **13.4 Fines and Civil Penalties**

Any violation of this Ordinance shall be enforced pursuant to 30-A MRS Section 4452, as amended from time to time, or in any other manner permitted by this Ordinance or other applicable law.
