

E911 HOUSE ADDRESSING

Several of our volunteers on both the Fire and Ambulance Departments have voiced their concerns regarding the inability to locate some of our residents in an emergency. There have been a few 911 calls where responders were not able to find the residence in a timely manner because there were no house numbers that were easily visible from the road.

These emergency responders cannot express enough the importance of such a simple concept. Please number your houses so that you may be found quickly in an emergency. The 911 Addressing Ordinance states numbers shall be of a color that contrasts with background and shall be plain block letters at least four inches in height.

You may also utilize the form below and have the Town's Addressing Officer, John Larson, make a numbered sign for you at a minimal cost of \$12.00. Mail or drop off 911 form and we will call when sign is ready.
